PROFESSIONAL SUMMARY

Analytical and detail-oriented Full Stack Data Developer with strong command of Python, SQL, Django, Flask and Docker. Experienced in designing robust data pipelines, building full-stack applications, and automating ETL workflows. Proven track record in delivering end-to-end solutions including API development, containerization, and data visualization. Passionate about transforming raw data into actionable insights.

TECHNICAL SKILLS

Programming: Python, SQL, JavaScript (basic), Java (basic)

Frameworks & Tools: Django, Flask, Django REST Framework, Docker, Git

Databases: MySQL, MongoDB(basic)

Data Processing: Pandas, NumPy, Excel

Visualization: Matplotlib, Seaborn

Version Control & DevOps: GitHub, Docker, AWS

Others: REST APIs, ETL Pipelines, Linux CLI

PROJECTS

1. CryptoTrackr: Crypto Price Tracker (*Python, MySQL, Docker, Seaborn*)

- Automated the collection of real-time crypto prices using REST API.
- Stored data in a MySQL container and visualized trends using Seaborn.
- Dockerized the entire project for easy deployment and scaling.

2. Manageo: Task Manager API (*Django REST Framework, Docker, MySQL*)

- Developed a full CRUD REST API for user tasks with JWT-based authentication.
- Used Docker Compose to orchestrate Django and MySQL services.
- Implemented secure environment management.

3. Refinr: ETL Pipeline for CSV Cleaning (*Python, Pandas, MySQL*)

- Built a script to clean and normalize messy CSV sales data.
- Loaded processed data into a MySQL database with proper error handling.
- Automated the ETL job using cron.

4. Dashlytics: Sales Dashboard (*Pandas, Seaborn, Matplotlib*)

- Analysed and visualized key sales metrics from cleaned datasets.
- Built multiple charts showing growth trends, top products, and region-wise sales.
- Generated auto-refreshing reports for weekly insights.

EDUCATION

Bachelors of Science in Computer Science

Thakur College of Science and Commerce, University of Mumbai | 2025

(Including relevant coursework: Databases, Web Development, Linux Server Administration, Ethical Hacking, Data Science, etc.)
